## About

Mr. Notowitz's specialties include video, audio, and digital file recovery, clarification, analysis, expert witness testimony, and media preparation for evidence used in mediations, hearings, and court trials. He has worked as a forensic audio and video expert witness on many cases, both criminal and civil, state and federal, for plaintiffs, prosecutors, and defense attorneys, assisting investigations by police officers, detectives, insurance investigators, public defenders, district attorneys, private attorneys, and corporations across the country.

Prior to a career as a digital media expert, David was involved in many forms of video production. In 1986 he started Notowitz Productions, and in 1989 began producing, shooting, and editing daily news stories for the Financial News Network (since bought by CNBC). Since then he has produced and edited documentaries, television news, and commercial video productions, the most notable listed below. He teaches a continuing legal education class (CLE) to attorneys titled, "Utilizing Audio, Video, and Digital Evidence in Civil and Criminal Litigation." David's knowledge of audio and video technology and production is wide ranging, and his ability to work with any form of audio and video evidence is unparalleled.

## Membership and Certification

California State Bar (to teach MCLE course on investigating audio and video for court)  
Los Angeles Superior Court Expert Witness Panel and U.S. District Courts across the country  
Audio Engineering Society (AES)  
Member of AES Working Group on Forensic Audio

### From attorney Michael Schwartz

I have retained David Notowitz and his company presently and in the past as a forensic video and audio expert for three high profile criminal cases which garnered national attention as well as several smaller cases. It has been my experience that Mr. Notowitz's depth of experience, thorough investigative techniques, and diligent and professional demeanor mean that no video or audio detail is left behind.

Moreover, the evidence he creates for use in court is easy to use, professionally packaged, and the highest quality.

NCAVF has always been easily accessible and available to answer any questions we have within minutes. I have found their work to be first rate, be it courtroom testimony that disarms the judge and jury with straightforward, honest explanations of complicated, technical issues, or the professional, courteous, and helpful manner in which they have addressed my questions and needs over the years.

I have found that because he has worked with such a variety of surveillance video files, Mr. Notowitz understands the pitfalls and weaknesses of each security video system, and he helps us to best utilize the evidence in each case.

It's my pleasure to recommend Mr. Notowitz. If you have any questions or wish to discuss the matter further, please do not hesitate to contact me.

**From attorney Rudie Baldwin**

My Defense firm retained NCAVF to enhance video surveillance footage of an alleged trip and fall accident that occurred at a bowling alley.

NCAVF not only enlarged and enhanced the footage, but also made a very astute observation that Plaintiff was talking on her cell phone at the time of the accident, and hence, was not paying attention!

The enhancements and observations of NCAVF played a substantial role in settling the matter for the costs of defense; a figure significantly lower than the multi-million dollar settlement demand made by the Plaintiff.

Mr. Notowitz is friendly, hard-working and has a great sense of humor. If you are looking for a forensic audio or video expert, you need not look any further!

**From attorney Bobby Schwartz**

To Whom It May Concern,

It is my pleasure to write this letter on behalf of Mr. David Notowitz. Throughout the years I have utilized his services in many cases. Most notably, Mr. Notowitz testified in a first degree murder case. There was a discrepancy in a tape recorded conversation between the defendant and an informant. Through Mr. Notowitz's expert testimony it was established the tape did not purport what the district attorney had claimed, resulting in an acquittal of first degree murder.

In another matter, there was a recorded video showing the defendant committing, in essence, a "beer run." It was alleged the defendant used a gun. Using Mr. Notowitz, we were able to prove no gun was involved in the commission of the crime. The gun charge was dismissed and we were able to reach a just disposition. These are but a couple examples of Mr. Notowitz's abilities to testify and present evidence in a court of law. He makes an excellent witness. He is able to relate to a jury and present evidence in a meaningful manner.

In any case I receive whenever there is tape or a video recording, I automatically send it to Mr. Notowitz. He has become an integral part of my practice in defending people charged with a crime. I would recommend his skill and expertise to any lawyer in any situation. Should you have any questions, please do not hesitate to contact my office.

Very truly yours,

*Robert I. Schwartz*  
*Farley Casey Schwartz & Powell*

**From attorney Andrew Mallett**

I had the pleasure of working with David Notowitz and his team at NCAVF for nearly a year in a federal civil rights lawsuit where recorded video footage played a central role in the case. NCAVF provided solid technical insight throughout the course of litigation and the result at trial would not have been possible without his team's ongoing expert assistance. When any case involves issues surrounding video or audio recordings, NCAVF is the go to forensic expert.

**From attorney Lazuli Whitt**

I would absolutely recommend David Notowitz and NCAVF. I worked very closely with David who reviewed Lorex Security footage for a criminal case I worked on. David was prompt, professional, and brought to the table ideas I had not considered which proved invaluable for the case.

**From attorney Robert E. Gluck**

I just wanted to send this testimonial regarding the work of Forensic Expert Motti Gabler from your company. NCAVF helped me secure a significant six figure settlement for my client on a personal injury case in Florida where there was a denial of liability by the defense due to what they claimed were pixilation issues with an image that distorted the video surveillance and made it appear as if a wet substance was on the ground when in reality it wasn't. Through your analysis, NCAVF was able to provide me the scientific evidence to "debunk" this defense theory. It was not until NCAVF got involved that the defense ever considered settling this case for any amount let alone the amount that we were able to recover, being one of the highest recoveries for this type of case I have ever obtained in thirty years of practicing law.

**From attorney Anthony Salerno**

We were able to settle the case on favorable terms Friday. Your work on the video enhancement and side-by-side file, as well as your noticing the shadowing, was crucial in the DA's decision to do what they did. Thank you very much. I will be sure to have you on speed dial in the future.

*Anthony Salerno*  
*Salerno Criminal Defense*

**From attorney Kasey Castillo:**

David Notowitz was an essential part of our defense team. Not only was he professional, but he was creative. David made countless presentation suggestions to the attorneys on the case that really allowed us to put forth important information and paint the clearest audio and video picture to the jury. We will not hesitate to call on David again in the future.

*Kasey Castillo*  
*CASTILLO HARPER, APC*

**From attorney Richard Martin:**

The videos really helped us settle our case. I will enthusiastically recommend your company's services to anyone coming our way.

*Richard Martin*  
*Lamothe Law Firm*

**From attorneys Bradley M. Cosgrove and Charles R. Haskins:**

David's attention to detail and work ethic are unmatched. We appreciated his ability to take on a complex video analysis in such a professional and thorough manner.

He was even better at trial, where his familiarity with technology and thoughtful explanation to the jury solidified our case in ways we never imagined possible.

Never have we worked with an expert so invested in his work and dedicated to his craft. His enthusiasm and responsiveness was truly appreciated. We would recommend David to anyone looking for a video forensic expert witness.
